Sterility (Bacteria/Fungi) ³	92	Negative at 14 days	Negative at 14 days	

AUTHORIZATION AND WARRANTY

Authorizing Signature: **Jean Spezia** Date: 07/28/2015

1. USP <197> and Patented / Proprietary UV Methodology
 2. USP <85> Turbidimetric or Photometric Technique.
 3. Sterility by MIC-SOP-0016 - Includes tests for Aerobic and Anaerobic Bacteria, and Fungi (Mold and Yeasts). Does not meet all the requirements for sampling and/or method suitability specified in USP <71>.
- * Materials were maintained in the original container closure systems, under monitored conditions, and exposed to ambient light intermittently during testing only.

Limited Warranty

Dynalabs, LLC, guarantees the testing services provided are performed satisfactorily for the use for which they are intended. It is the practitioner's responsibility to exhibit professional judgment regarding the release of any product for dispensing purposes. The liability of Dynalabs under this warranty is limited to service credit or replacement at the discretion of Dynalabs. Dynalabs shall not be responsible for incidental or consequential damages of any kind. This warranty is exclusive and in lieu of all other warranties expressed or implied. Dynalabs does not make any warranty of merchantability with respect to the products tested, and there are no other warranties extending beyond the description on the face hereof.
